

# CAPABILITY STATEMENT

Founded in 1973, Dissen & Juhn Company combines the agility and customer focus of a small company with heavy construction capabilities unusual for a company of its size. Headquartered in Stevensville, Maryland, Dissen & Juhn

**DISSEN & JUHN COMPANY**  
Marine Contractors

Company serves the Chesapeake and Delaware Bay watershed regions. Our proven track record in reliability, safety, environmental stewardship and technical competency, makes us ideally suited for your next marine construction project.

Our commitment to maximizing customer value – quality, delivery, and service – all at a competitive price, is what sets us

apart as the Chesapeake Bay watershed's pre-eminent mid-size marine and foundation contractor.

## SUMMARY OF QUALIFICATIONS

Dissen & Juhn Company has completed more than 1,200 marine construction projects for public and private customers.

Our strengths and unique qualifications include:

- A highly trained and experienced team of construction professionals including heavy equipment operators, carpenters, pile drivers as well as in-house engineers to address design, construction, use, and maintenance issues.
- Superior project engagement from top down and bottom up. As a second generation, family-owned business, the owners are involved in each project. Its management team includes multiple engineering disciplines, and onsite managers with extensive experience in all facets of marine construction.
- A vast inventory of heavy construction equipment, including work boats, barges, winches, cranes, excavators, and pile driving equipment, which gives the firm unique flexibility to take on a wide range of projects.
- A solid financial base with ample bonding capacity and open lines of credit, as well as full insurances, including General Liability, Inland Marine, Hull, P&I, E&O, Builders Risk, Pollution, and Workers Compensation.

## DEMONSTRATED LEADERSHIP IN SAFETY

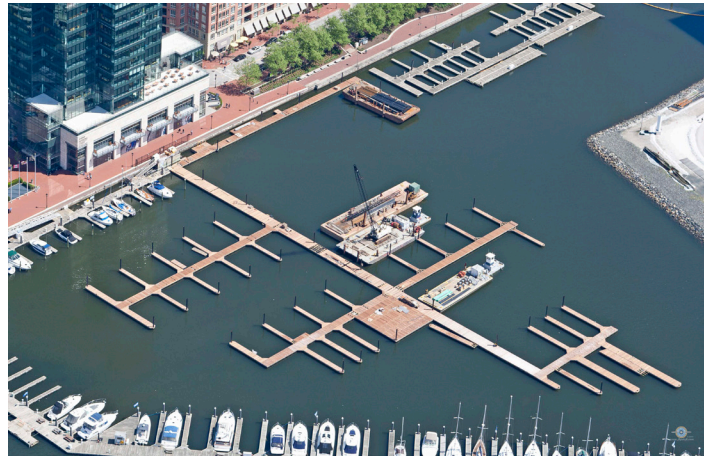

Dissen & Juhn Company is committed to safety, and participates as a Bronze Level company in the STEP Safety Management System (STEP); a program managed by the national construction industry trade association Associated Builders and Contractors (ABC). STEP applicants evaluate their safety processes and policies with the goal of implementing or enhancing safety programs that reduce jobsite incidents.

## HONORS AND AWARDS

Dissen & Juhn has received numerous accolades over the years. Recent Associated Builders & Contractors, Chesapeake Shores Chapter awards include:

- "Excellence in Construction" Award for 2021, Safe Harbor Oxford, Marina Renovation.
- Merit Award in the Special Projects category for 2019, Port of Chestertown Marina Redevelopment.
- "Excellence in Construction" Award for 2018, Harbor East Marina, Baltimore's Inner Harbor.
- "Excellence in Construction" Awards for 2017, Riverfront Redevelopment Pier, New Castle, DE and Stevenson University Pedestrian Bridge, Owings Mills, MD.
